

FRIDAY EVENING, OCT. 10, 1856.

**The Niagara—George Steers's Government steamer**—will not be ready for her trial trip before the last of November. It is decided that she is to carry twelve immense pivot-guns, each of eleven-inch bore, eleven feet long inside the bore, and weighing 15,900 pounds. The sliding carriages for them are being built in the most approved and thorough manner, the slides being not less than eighteen feet long, and provided with improved eccentric rollers. The Niagara's boats are to be fitted for carrying heavy brass guns for shore service.

**The Steam Frigate Wabash.**—The magnificent steam frigate Wabash arrived at Portsmouth on Friday, the 3d inst. She has proved a complete success, having averaged from twelve and a half to thirteen knots an hour from New York to Portsmouth. This vessel has reflected much credit upon the naval constructors, and her friends say she has commenced a new era in naval affairs. President Pierce will go South in this vessel as far as Norfolk in a very few days; for which purpose the Wabash has put into Portsmouth. She will afterwards proceed to Havana.

**IMPROVED FLOURING MILL.**—We learn from the English journals that an important improvement in the manufacture of flour has been patented in England, by means of which an increased quantity of flour is produced from a given quantity of wheat. The value of the improvement seems to consist chiefly, if not wholly, in the power of the mill to extract from the grain all its nutritive portions, by producing, in addition to such quantity of flour as it is capable of affording of the first quality, several inferior qualities, by which an increased value is given to portions which, by the ordinary method of flouring, are comparatively worthless. An experiment was lately made in London, for testing the merits of the mill, in presence of a number of gentlemen, several of whom were appointed by the admiralty, with a view of determining whether the invention should be introduced into the government victualling establishment at Deptford. The following statement is given of the results of the experiment, viz:

100 lbs of wheat produced 54½ lbs of the first quality of flour, 10½ lbs of the second quality, 8½ lbs of the third quality, 8 lbs of the fourth quality, 8½ lbs of the fifth quality, called sharps, and 7½ lbs of bran, being 98 lbs of alimentary matter, with a loss of only 2 lbs of debris, the general product of the best working mills in present use being only 68 lbs. flour, the bran and the loss being more considerable. The flour, which in common mills is turned out in a very heated state and cooled by a cold blast of air, was in this machine, turned out sufficiently cool for immediate use, and as may be estimated, a saving of about 15 per cent. was secured. The naval gentlemen expressed their satisfaction at the results, and the invention will be employed at Deptford.

For Nicaragua, the attention of those wishing to go to Nicaragua is directed to the following:

To the Editors of the Louisville Bulletin:

ASTOR HOUSE, N. Y., Oct. 3, 1856.

GENTLEMEN: I have procured the steamship Tennessee, and she will leave New Orleans on the 27th of October direct for San Juan, Nicaragua; and by emigrants giving the Emigration Company 100 acres of the grant of land offered by Government to them, which leaves enough for a fine ranch, they will have a free passage to Grenada, Nicaragua, from New Orleans, and all expenses paid. This is positive, by the authority of Mr. Morgan, he being the owner of the new line.

News from Nicaragua in regard to the health is good. Walker is in good spirits. No more desertions. The news from Panama of forty being shot is false, as is usual from that quarter of our enemy, it being a rival line.

I am going on the Tennessee, and will be in Louisville soon. Let all who wish to go be ready, as the time is short before the sailing of the Tennessee. I leave by the cars now. In haste,

S. A. LOCKREDGE,  
Traveling Agent, Nicaragua.

**A ROYAL SARCOPHAGUS.**—A letter from Stockholm of the 8th ult. says:

The red porphyry sarcophagus of Elfsdehl, in the province of Dalecarlia, which Oscar ordered for the mortal remains of his august father, and which has been eight years making, has just arrived at Stockholm, and is now being exhibited to the public. It weighs 320 skippeends (sixteen English tons), and required eighteen months to be brought from the quarries of Elfsdehl to the capital. The body of this magnificent and colossal tomb is an exact reproduction of that of Agrippa, in the Vatican. The sarcophagus, which is to be placed in a recess in the Noble's Church at Stockholm, is undoubtedly the most remarkable of any of the kind that have been executed in Sweden.

**THE AUBURN MURDER.**—The theory has been advanced that, in cases of sudden death, the last object seen is daguerrotyped upon the retina. It is evident that, in the case, an important source of evidence would be added to those already derivable from post-mortem examination. So far as we know, this theory is as yet unsupported by any positive observations, though it harmonizes with the accepted doctrine, that every nervous impression involves a molecular change in the nerve matter itself.

Dr. Sanborn, of Auburn, made such examination of the eyes of Mr. Beadle, recently murdered in Auburn. The editor of the Advertiser, of that place, says:

"We were present during that examination, and have at least this testimony to bear, that there is truth in the principle involved. Dr. S. made a skillful dissection of the eye, and succeeded in bringing the retina, one of the most delicate of human organs, under an expansion of the optic nerve, under the view of a microscope. There was nothing on the retina examined which would lead to the detection of the victim's murderer, but there was that impressed upon it which sufficiently establishes the fact that the retina retains the last impression made upon it. What we saw ourself we do not feel disposed to make an affidavit of, and therefore prefer not to state; but we will say that an examination of the retina of an eye, with a common microscope, reveals a most wonderful as well as beautiful sight, and that in this instance we discovered, as upon a daguerrotype plate, plainly marked impressions at once interesting and startling to behold."—*Buffalo Com. [For the Louisville Bulletin.]  
ANNUAL REPORT OF THE SECRETARY OF THE PROTESTANT EPISCOPAL ORPHAN ASYLUM.

In presenting the twentieth annual report of the Protestant Episcopal Orphan Asylum to the patrons and friends of the Institution, the managers rejoice in being able to record another year's experience of continued blessing from Him who "defendeth the fatherless and the poor." Health and happiness have been granted to the children of our care, while they have been steadily improving in knowledge and usefulness, and are being trained both in the school and family by the pious and efficient ladies of the household to be, as far as in them lies, valuable members of any community in which their lot may be cast. Sixteen children have been admitted during the past year, and eighteen have been removed to good homes or to the care of near relatives. Present number forty; but we are frequently receiving applications for admission and shall probably number a much larger household shortly. Of our family at this time, there are fourteen only four years old and under, and we would call the attention of our patrons to the fact of the helplessness of infants of such tender years and the increased expense incidental to the maintenance of an Institution, the eldest of whose inmates is a girl of only eleven, with the exception of one grown girl, whom a benevolent teacher of this city is educating free of cost, and who is consequently always engaged at school. We feel that all praise is due to our indefatigable matron and nurse in their successful care of such a nursery, there having been no sickness in the Asylum, through the mercy of Heaven, nor any deaths during the past year, save those of three infants, whom we lost in the summer from teething. Our thanks are likewise due to our able and attentive physician, Dr. Hewitt, for his generous services to the Asylum, believing, as we do, that his vigilance as often secures us against disease as his skill is blessed in subduing its attacks and preventing its spread.

But, while we speak of the number of small children in our charge at present, we can point to interesting facts evincing their industry and the habits of usefulness in which they are trained. Four little girls, under ten years of age, not only make their own clothes, but delight in showing garments of their manufacture for the infants in the nursery. During the vacation, these little creatures, and a few others of like tender age, accomplished six quilts and thirty yards of carpet. While recording, however, the prosperity within the walls of our Orphan Home, which has cheered our hearts and strengthened our hands in another year of toil for its welfare, we have to state an unusual depression in our finances, owing not, as we well know, to any lack of generous interest on the part of those who so long have most liberally sustained us, but to the subscription list (in the hands of gentlemen much engaged in business) having been overlooked, and in this way the collections falling far short of our necessities. We therefore record with grateful emotion our thanks to the congregation of Christ Church for a most noble contribution at a period when we were in debt to the treasurer for the daily food of the children, which timely relief was immediately followed by a large benefaction from St. Paul's.

In conclusion, we would earnestly appeal to all the friends of the orphan to sustain us in our struggle for their support during the ensuing year. If our friends in the country would think of the wants of the Asylum, and send us such vegetables or other articles of daily consumption as they may be able to spare, it would contribute much to reduce our expenses, as well as tend to increase the comfort of children, whose only gladness is in the generous care of those who, in bright homes of abundance, with their own smiling ones surrounding them, yet "forget not the needy," may many such be found, tenderly and bountifully mindful of these unfortunates, on whose little lips the sweet and soothing word, "mother," never trembles, nor on her heart of love may even the helpless head of their infancy be cradled!

With the winter before us, and at the high rates of fuel and food, we shall need increased help to meet our numerous wants, and we do therefore anxiously commend this touching charity to the generosity of all who feel for the orphan, and who remember that the Savior commits to the care of His followers both His "poor" and His "little ones."

F. A. PETTET, Secretary.

**THE BABY IS DEAD.**—A long, black scarf, trimmed with broad, white ribbon, hangs upon the door knob. A death-like stillness pervades the entire mansion: all within moving with the softest tread, and speaking in softest whispers, as if fearful of disturbing the repose of some loved one. Those passing along the street observe the sombre scarf, and the instant change in the countenance betrays the thought, "the baby is dead!" Yes, the baby is dead, and not only those who have been familiar with its sparkling eyes, but the stranger, who received the intelligence solely from the scarf on the door, feels that a home has been robbed of a precious idol. How deep was the love that had lustered around the innocent babe; and oh! how terrible is the blow its death inflicts.

The baby is dead! It no longer clings in innocent love to its mother's bosom, or stirs with fondest joy its father's heart. Its prattling has ceased for ever, and its once laughing eyes are closed in an eternal sleep. But even in death it seems to have lost none of its sweetness. It lies so calmly in its silken-cushioned coffin, prepared with so much care; it has been arrayed in its costliest garments, its pure brow trimmed with a fragrant wreath, and flowers have been scattered over its lovely form. As it is thus arrayed, the babe seems only to be sleeping; but alas! it is that sleeping which hath no waking.

The baby is dead! Around it are gathered many whose sympathies it has aroused, and whose love it has excited. The minister leans over the cold form, and touched with the sight, tears trickle down his cheeks, while he exclaims, "Thus saith the Lord, 'Suffer little children to come unto me, and forbid them not, for of such is the kingdom of Heaven.'"

The baby is dead! It is about to be shut forever from the sight of those who loved it as no others could. Oh! how the mother clings to the lifeless form; and, as she imprints the last fervent kiss upon its cold cheek, how her very heart strings seem to break! And the father, though he has manfully braved toils, cares, and dangers, now feels unmanned, and weeps like a child, as he hands over the corpse of his lost one. Sympathy, at other times consoling, is now of no avail, and the hearts of both suffer the deepest anguish.

The baby is dead! Tears have wet its grave, and crushed hopes lie buried with it. Though its moral existence may have been brief, its death has desolated a joyous home. Sweet hah! Orators may announce a nation's loss in the death of patriots great and true, and poets sing in touching strains the memory of the dead, who have accomplished mighty things—none but angels of heavenly birth will record the life, so pure and beautiful, so early lost.

## CITY COURT.

FRIDAY, Oct. 10.

Mary Cassidy, drunkenness; just from Cincinnati; was not aware of the custom in Kentucky. Let off.

Henry Medley, drunk and exposing his person. Fined \$20.

Ann Kelly, up yesterday, drunk again. Sent to workhouse.

Ellen Flowers, drunkenness. Workhouse.

Dennis Hanley and Patrick Moore, drunkenness. Sent to workhouse for two months.

J. P. Harding, stealing a horse from Mr. Kincher. Kincher went to Indiana to hunt his horse. He came to Harding's and saw his horse, and got Harding to bring him to this city in his wagon. When they arrived here Kincher had Harding arrested on a charge of stealing his horse. Harding admitted that he had claimed and taken Kincher's horse, which was advertised as a stray, but that he had swapped it off for another horse.

William, slave of Miss Martha Hughes, setting on fire a stable in the alley between Market and Jefferson and Fourth and Fifth streets. Ordered to receive ten lashes.

AN INCIDENT.—We witnessed an incident during the delivery of the speech of Mr. Botts at Petersburg, on Saturday evening last, which is worthy of notice, as showing that the devotion of the people of Virginia to the Union has not been seriously affected by the mischievous ranting of politicians.

After alluding to the speeches of his Excellency, Gov. Wise, Mr. Botts said he wished to know how many men there were in that audience who sympathized with the sentiments of his Excellency, or were willing to embark with him in a wild crusade against the Union, for no better cause than the election to the Presidency of any man who may be constitutionally eligible to the office; he desired that all such would rise to their feet. Several gentlemen, who were standing at the time, stooped to the level of the seats, but not one man in that vast assembly rose up at the call. "Then," said Mr. Botts, "according to Mr. Wise's definition of the term, we are all 'traitors' together, and I congratulate myself upon the numbers and respectability of the company in which I find myself." The shout of applause which followed this announcement was such as to fill the heart of the patriot with joy, at the certainty that the citizens of the Cockade City are almost to a man determined to stand by the Union.

THE GREAT RUSSIAN REMEDY.—Pro Bow Public.—"Every mother should have a box in the house handy in case of accidents to the children."

REDDING'S RUSSIA SALVE.—It is a Boston remedy of thirty years' standing, and is recommended by physicians. It is a sure and speedy cure for Burns, Piles, Boils, Corns, Felons, Chilblains, a Old Sores of every kind; for Fever Sores, Ulcers, Itch, Scald Head, Nettle Rash, Bunions, Sore Nipples (recommended by nurses), Whitlows, Sties, Festers, Flea Bites, Spiler Stings, Frozen Limbs, Salt Rheum, Swart, Sore and Cracked Lips, Sore Nose, Warts, and Flesh Wounds it is a most valuable remedy and cure, which can be testified to by thousands who have used it in the city of Boston and vicinity for the last thirty years. In no instance will this Salve do an injury, or interfere with a physician's prescriptions. It is made from the purest materials, from a recipe brought from Russia—of articles growing in that country—and the proprietors have letters from all classes, clergymen, physicians, sea captains, nurses, and others who have used it themselves, and recommend it to others.

REDDING'S RUSSIA SALVE is put in large tin boxes, stamped on the cover with a picture of a horse and a disabled soldier, which picture is also engraved on the wrapper.

Price 25 cents a box. Redding & Co., proprietors. R. A. Robinson and Bell, Talbot, & Co., agents for Louisville. Scribner & Devol, agents for New Albany.

## BY TELEGRAPH.

Reported for the Bulletin.

PHILADELPHIA, Oct. 10.

The whole city was alive last evening with political meetings. All three of the parties had large demonstrations. The Fillmore men had a torch-light procession, which is estimated by the Enquirer at 40,000. The Fremonters had an immense gathering in Independence Square. If both vote unanimously for the Union ticket it will doubtless receive a large majority.

Some trifling disturbances occurred during the procession, and at one time fears were entertained of a riot in front of the Pennsylvania office. Here Capt. Martin, Democratic member of the common council, was wounded in the leg by a pistol shot, but the crowd was dispersed by the police and quiet restored.

Last night the woolen factory of Ervin & Stinson was destroyed by fire. Supposed to be incendiary. Matthew Hamilton was crushed to death by the falling of the walls, and two others are missing, who are supposed to be beneath the ruins. Four or five others were injured.

New York, Oct. 10.

The Democrats nominated Horace F. Clarke in the Eighth Congressional District, and also Daniel E. Sickles in the Third District, in opposition to General Walbridge, the regular candidate.

The Herald says Fremont has received within a few days several letters threatening him with assassination, as his enemies are determined he shall never be inaugurated.

The Democrats of Brooklyn have nominated Samuel S. Powell for Mayor.

Baltimore, Oct. 10.

The city is quiet to-day. Large parties of Democrats have been armed during the day, expecting an attack from American Clubs. The police are now prepared to maintain order.

SPRINGFIELD, MASS., Oct. 10.

The Buchanan, Fillmore, and Whig parties coalesced to-day upon county and Congressional nominations. William C. Fowler, Hunker Whig, was nominated for Congress.

MONTPELIER, Oct. 10.

The Legislature assembled to-day. Geo. W. Grandy, Republican, was elected speaker, receiving 196 votes and D. L. Watson, Dem., 16.

Baltimore, Oct. 10.

Result of the election riots on Wednesday shows 4 killed, 5 dangerously injured, and 50 others wounded.

New York, Oct. 10.

A broker, Charles B. Huntington, has been arrested, charged with forgeries on Phelps, Dodge, & Co., amounting to \$30,000.

PORTSMOUTH, Oct. 10.

The Wabash sailed at 5 this afternoon, with the President on board. An immense crowd witnessed his departure and he was loudly cheered.

The reception of the President in this city was most cordial and of a gratifying character.

## GOOD MEDICINES.—It is estimated that

AYER'S CHERRY PECTORAL AND CATARRHIC PILLS have done more to promote the public health than any other one cause. There can be no question that the Cherry Pectoral has by its thousand cures of Colds, Coughs, Asthma, Croup, Influenza, Bronchitis, &c. very much reduced the proportion of deaths from consumptive diseases in this country. The Pills are as good as the Pectoral, and will cure more complaints.

Everybody needs more or less purging. Purge the blood from its impurities. Purge the bowels, liver, and the whole visceral system from obstructions. Purge out the diseases which fasten on the body to work its decay. But for diseases we should die only of old age. Take antitoxins early and thrust it from the system before it is yet too strong to yield.

Ayer's Pills do thrust out disease notably while it is weak but when it has taken a strong hold. Read the astounding statements of those who have been cured by them from dreadful Scrofula, Dropsy, Ulcers, Skin Diseases, Rheumatism, Neuralgia, Dyspepsia, Intestinal pain, Biliary complaints, Heartburn, Headache, Gout, and many less dangerous but still threatening ailments, such as pimples on the face, Worms, Nervous Irritability, Loss of Appetite, Irrregularities, Disincline in the bowels, Cancers, Dysentery, and indeed every variety of complaints for which a Purgative Remedy is required.

These are no random statements, but are authenticated by your own neighbors and your own Physicians.

Try them once and you will never be without them.

Price 25 cts. per Box—5 Boxes for \$1.00.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass., and sold by all Druggists and dealers in medicine through this section. 08 j&b2m4w14

## DALLEY'S MAGICAL PAIN EXTRACTOR

There never has been a discovery made in Materia Medica whereby pain can be so quickly allayed, and where pain in its natural state, nor where wounds and sores can be so thoroughly and rapidly healed, and decayed parts removed without either scar or defect, than with DALLEY'S MAGICAL PAIN EXTRACTOR.

In Cuts, Wounds, Sprains, and Bruises—contusions of which children are constantly subject—the action of the genuine DALLEY'S PAIN EXTRACTOR is sover the same. How much pain and suffering may not thus be prevented. Moreover, life itself is often dependent upon having at hand the Genuine DALLEY EXTRACTOR, and for particulars of which I respectfully refer to my printed pamphlet, for the truth of which I hold myself responsible.

No case of Burns and Scalds, no matter how severe, however yet, in any one instance, related the all-powerful, pain-destroying and healing qualities of the DALLEY'S PAIN EXTRACTOR.

No Pain Extractor is Genuine unless the box has upon it a Steel Plate Engraved Label with the signatures of C. CLICKENR & CO., proprietors, and HENRY DALLEY, manufacturer. Price 25 cents per box.

All orders should be addressed to C. W. Clickenr & Co., 81 Barclay street, New York.

Sold by all the Druggists throughout the United States. sept 8 j&b1m

## Important to Females!

DR. CHEESEMANN'S PILLS.—The combinations of ingredients in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities, painful menstruation, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, and disturbed sleep, which always arise from interruption of nature. They can be successfully used as a preventative. These pills should never be taken in pregnancy, as they would be sure to cause miscarriage. Warranted purely vegetable and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price \$1. RAYMOND & PATTON, 74 Fourth street, wholesale and retail agents or Louisville. Sent by mail by enclosing \$1 to Dr. Cornelius J. Cheesman, No. 192 Broadway, New York. July 19 j&b1m
